Record of GenAI use for [Github Coding task and short report (Computing Skills and Python)].

Instructions: You can use this document to record when, how and why you used GenAI to complete your assessment. It will help you create a record of GenAI use to submit alongside your references for AI-integrated and AI-assisted assignments. It may also be useful to help you discuss your GenAI use if you are required to do so in an academic conduct meeting.

Date	GenAI tool used	Purpose	Prompt	Hyperlink to output (where possible)	Section of work used for
23/09/2026	MS Copilot	To help refine the initial ERD structure and ensure relationships made sense.	"Does this ERD structure make sense for a hospital database with doctors, patients, and prescriptions?"	Co-pilot does not facilitate hyperlinks.	ERD planning and pseudocode structure.
27/09/2026	MS Copilot	To troubleshoot MySQL table creation errors and confirm correct schema definitions.	"Why is MySQL rejecting this CREATE TABLE statement, and how do I fix it?"	Co-pilot does not facilitate hyperlinks.	MySQL database creation and schema alignment.
30/09/2026	MS Copilot	To help adjust pseudocode after importing CSV data and testing table relationships.	"Help me update my pseudocode so it matches the final database schema and imported data."	Co-pilot does not facilitate hyperlinks.	Pseudocode document and data import workflow.
07/10/2026	MS Copilot	To check SQL query logic and ensure outputs	"Does this SQL query correctly retrieve doctors	Co-pilot does not facilitate hyperlinks.	SQL Queries document and output verification.

		matched the final schema.	from a specific hospital?"		
11/10/2026	MS Copilot	To help write a clear, structured README explaining the repository contents.	"Help me write a professional README for my GitHub repository."	Co-pilot does not facilitate hyperlinks.	README.md
11/10/2026	MS Copilot	To understand how to export the MySQL database and download the .sql file from OpenStack.	"How do I export my MySQL database and download the .sql file from OpenStack?"	Co-pilot does not facilitate hyperlinks.	SQL export and submission preparation
07/10/2026	MS Copilot	To help ensure the reference list and short report were clearly structured and aligned.	"Help me check that my references and short report are structured clearly and meet the brief."	Co-pilot does not facilitate hyperlinks.	Reference List and Short Report
